Title:

Comments: I ride mountain bike and dirt bike in the Grand Mesa, Uncompahgre and Gunnison forest -- over on the spring creek side is much smoother and less technical trails in which we see more mountain bikes -- on the cement creek side there are very few mountain bike and or hikers -- most motorcycles yield to all others and use the trails which keeps the trails open. Keep all trails open to the motorcycles it keeps the trails from overgrowing and open. Keeps the people coming into the area and spending MONEY. On the cement creek side there are not many people on the trails there so need for bathrooms would be for people on the roads there not people using the trails.
