Comments: Hi,

I am voicing concerns regarding motorized use expansion in the Crested butte and Gunnison Colorado areas. It seems after several years of increasing pressure by motorized user groups that expansion is being considered. As a non-motorized user, I would like to express my concern in this area.

1.

Increased noise and pollution in areas where clean air is sought

2.

Increased rate of trail destruction and no formalized motorized user group to repair

3.

Increased friction among users- as those that are motorized tend to force non-motorized users off the trail and travel so quickly that they are not watching for non-motorized users with their pets (many times)
