Title:

Comments: I have lived in this valley for 40 years and every year more and more of our trails are taken away not added onto. Silent Tracks has thousands of acres they can hike, bike and be quiet in. They are pushing more user groups into smaller areas and that only creates user conflicts which is their goal. We just went through a travel management plan why are we rehashing and taking away more public lands from certain user groups. I am all for adding more trails to accommodate the motorized users who are the only ones who actually pay for these trails thru the endless fees.
