Comments: Dear Forest Service,

Motorized use in the National Forest should be allowed and encouraged because we too are American citizens. Snowmobiles never actually touch the ground (OSV) and actually help animals by providing packed trails for them to travel. This may counter the so called noise disturbance, brought up by Silent Tracks. As for dirt bikes and atvs, we are now only allowed in 3 or 4 drainages in the upper valley, as compared to 12 drainages for non motorized.

Please refrain from closing any more trails to motorized!!

Thank you,

Vinc Scola
