

Data Submitted (UTC 11): 12/6/2017 2:30:33 PM

First name: Tony

Last name: Jakino

Organization: WESTCORE Western Colorado Riders and Enthusiasts

Title: Treasure

Comments: I believe that access to our public lands needs to be preserved for everyone. Responsible management is important but we need to maintain motorized access to our public lands. The motorized community is large and we need to be represented. The motorized groups are also your biggest group willing to get out and do work to the trails through organizations. We are also large contributors to the budget through registration tags. Motorized users are also huge contributors to local businesses and support the economy. Please maintain and grow motorized access to our public lands. Thank you for all your hard work managing our public lands!
