Comments: As a user who enjoys the Forest by both motorized, (dirt bikes) and non-motorized, (MTB, hiking, over snow) means, I would like to see more multi-use trail implemented in the GMUG. More multi-use trail would likely decrease traffic and user conflict on existing trail systems. A more focused campaign on education and trail etiquette could also lead to less impact and a more pleasant experience by all user groups.

I would encourage increased volunteer opportunities, both agency led and independent. Assigning and crediting organized user groups with trail maintenance and the cleaning of parking areas and trail heads would promote responsible Forest/BLM land use by all.

I do NOT want to see a reduction in motorized trail. I DO want to see more communication and cooperation between user groups.
