Title:

Comments: My name is Chris Thomas, I would like to preface this by stating I am not a very eloquent individual when it comes to these processes, but I would like to state my thoughts concerning the plans for the usage of our public lands... My usage is very diverse. I am primarily a motorcyclist, however, I hunt (rabbit, Grouse, Elk, Deer...) I fish, I camped out 25 nights on Colorado public lands in 2016, I ride ATV's, I ride Dirt Bikes, I ride Mountain Bikes, I snow shoe, I hike... I helped build mtb, and motorized trail, I have spent my own money and volunteered my time and effort clearing and maintaining the existing trails in several areas...

That being said.. My position, is that I am all for new Mountainbike trails, I will use them myself, HOWEVER, I do NOT support modifying, or acquiring existing motorized trails for NON motorized use. It is not fair, and undermines an entire class of legal recreational users of public lands.
