Title:

Comments: I strongly disagree with the statements made in this article. I pay for my OHV permit every year to ride in OUR forest not YOUR Forrest sir, also have involved myself in plenty of volunteer work on maintaining trail systems. I have been privileged to do the same thing year after year for my whole life. you want to smell real pollution do us a favor and move to the city so we do not have to deal with left winger global warming specialists like yourself, or move higher to the hills on your own property and leave people alone trying to enjoy our Forrest system. I plan to raise my kids riding around this trail system, and I will make sure I will keep my opinion in this before you ever get to call the national Forrest system "your Forrest"
