First name: fred

Last name: holbrook

Organization:

Title:

Comments: I am writing from my experience as a mountain biker, hiker, camper, hunter and fisherman in the Gunnison National Forest for 40+ years. Needless to say I have seen the numbers of all types of users increase steadily year after year. I firmly hope and believe that the trend will continue. Please do your best to plan in a way to minimize conflicts between competing users and provide more access/trail opportunities for all users.
