First name: Vicki

Last name: Celli

Organization:

Title:

Comments: Our family, and friends support responsible recreational off-road riding in neighboring states. We believe the motto of "Land of many uses" should be adhered to by the National Forest Service. Responsible riders respect our natural resources and the lands on which we travel. Our sport is being unfairly targeted in most of the plans being revised by the National Forest Service, including the Grand Mesa, Uncompahgre, Gunnison Forest Revision Plan #51806. We would hope that your plans would include, not exclude, responsible off road recreation.
