Comments: small typos and editorial suggestions

Hi,

Continuing with minor typos and editorial suggestions.

In the Tribal assessment on page 2, in the first paragraph "Preservation Act, (NHPA)" -> "Preservation Act (NHPA),"

In the Tribal assessment on page 3, in the last paragraph "across the GMUG and impacted by" -> "across the GMUG and are impacted by" ?

In the Tribal assessment on page 4, in the 2nd bullet "on Uncompahgre Plateau" -> "on the Uncompahgre Plateau" (same as what is in the 1st bullet).

In the Tribal assessment on page 4 in the paragraph after the bullets "including area on the Uncompahgre Plateau" -> "including areas on the Uncompahgre Plateau" perhaps?

In the Tribal assessment on page 6 in the 1st paragraph after the map "ethnographic studies" is repeated back to back.

In the Tribal assessment on page 6 in the 2nd paragraph after the map "Three tribes with interest ... include the Ute ... " The sentence lists 3 tribes so the "include" should be replaced with "are" as in "Three tribes with interest ... are the Ute ..."

In the Tribal assessment on page 8 in the 2nd to last paragraph "life individual" -> "life of individual"

In the Tribal assessment on page 9 in the 1st paragraph under "Existing Conditions" "conducted by the forest." -> "conducted by the Forest." or by the Forest Service."

In the Tribal assessment on page 10 in the 1st paragraph under "Traditional Plants and Trees" "and to and practice" -> "and to practice" ?

In the Tribal assessment on page 10 should the last paragraph have a different sub-title - it appears to be part of

the osha section.

In the Tribal assessment on page 11 in the 4th paragraph, "It also made clear" not sure what the "It" is referring to. Perhaps "The fragility makes clear"??

In the Tribal assessment on page 12 in the 2nd to last paragraph, "and landslides and geologic hazards" -> "landslides and geologic hazards" ? This sentence though I think would benefit from being split into at least two sentences, perhaps three even.

In the Tribal assessment on page 12, in the last paragraph - WUI ... I'm guessing wildland urban interface. A definition somewhere in the assessment would be appreciated.

In the Tribal assessment on page 13, in the 3rd paragraph "impact of climate change extend" either "impacts ... extend" or "impact ... extends"
