Comments: On page 3 of the Draft Assessment under Trails / bullet point one, it states "additional motorized routes and loop routes are desired by the public." As I am "the public," I would like it known that I am NOT in favor of additional motorized routes. On the contrary, I believe we are destroying much of our land because of the overuse of motorized vehicles. This same erroneous bullet point above is in direct contrast to the evidence in the 2014 Colorado Statewide Comprehensive Outdoor Recreation Plan (2014 CSCOR Plan), Table 3.4 on page 36.
