Title:

Comments: I'm a user of the forest for many activities, I ride ATVs, off road motorcycles, hunt, ride Bicycles and Hike. I believe strongly that all access and trails that we currently use should be left open for use. Our forest is beautiful, I enjoy immensely. I do not see negative effects of traffic or use and I see wildlife in abundance.

I'm also a motorcycle mechanic by profession, and see large amounts of visitors to our area due to the great riding opportunities both on and off road. This has a large economic impact in our area, much the same as hunting does.

I'm strongly in favor of being able to continue utilizing all trails and areas for all purposes, and I sincerely hope that you feel the same.

Thank you
