First name: Scott

Last name: Reimann

Organization:

Title:

Comments: Please do not take any more trails away from great stewards. I'm a dirtbike rider, switching to electric to get rid of the noise. As electrification accelerates, the sound factor in the forest will be nearly totally eliminated. Please have the foresight to allow the family tradition of riding and discovering our natural wonders to continue. As with anything, there are always a few poor representatives from any group. Please do not the the masses suffer for their stupidity.
