Comments: I would take issue with the statement on Page 3 that "additional motorized loops and trails are desired by the public." We wish that motorized loops would just go away!

I would take issue with page 56 under the heading Crested Butte that mountain biking is losing ground in popularity to dirt biking.

Mountain biking is gaining in leaps and bounds, unfortunately even one dirt bike on a shared trail detracts from the mountain bike experience making it feel like there are more dirt bikers than there really are. Dirt bikes can be found on trails where they are not allowed and are not good stewards of the land. They should be banned.

Please protect our beautiful backcountry from overuse and motorized activities.
