Comments: Off road riding is my primary source of recreation in Colorado summers. I consider myself a responsible rider, and do not ride when trails are muddy or otherwise sensitive. I travel from the front range to western Colorado (GJ, Fruita, Ouray, etc.) multiple times each summer for extended trips. As a tourist, I support local economies by renting rooms, enjoying local restaurants and pubs, and using local cycle shops for service. I ride as a responsible adult and many times bring other friends to introduce them to the sport, taking advantage of rental opportunities. Please acknowledge that this is an important source of fun and economic development for Colorado.
