Title:

Comments: I am a 60 year old responsible dirt biker. We continue to lose trails which causes more of us to be on the same trails. This has a greater impact on the trails and makes them less safe for all of us. There are sooooo many opportunities for non motorized use. I am also happy to share trails with other users. I always yield to hikers, bikers and horseback riders. There is no reason we cannot all get along. I also hike and mountain bike. When hiking, I only hear motorized vehicles for a short period of time. They are out of earshot quickly. We also have a positive impact on the local economies of the places we visit. We spend money on lodging, meals, gas, etc. Please do not reduce the number of trails available to mixed use. Thank you.
