Title:

Comments: I am a hiker, cross country skier and bicyclist having lived in the Crested Butte area for 20 years.

Currently, I live in Crested Butte South, an area surrounded by national forests which are primarily utilized and enjoyed by locals and visitors for experiencing solitude while enjoying and benefiting from all nature has to offer (wildlife, forests, flowers, water, and clean air).

I am writing this comment urging the Forest Service to continue to protect these lands and preserve the natural experience for current and future generations to enjoy.
