Comments: I am a motorcycle owner and I do not get a chance to ride off road much. But when I do ride, I like to explore new areas of our state and specifically western Colorado where I live. If these trails are closed, it will greatly limit the areas I can enjoy as a part of public lands that are mine as much as anybody else's.

I know that many areas of Colorado benefit from tourism, and much of that tourism is from other off road and motorcycle enthusiasts. Closing these trails will limit potential revenue from those visitors as they will be less likely to visit our area.
