Comments: Hi,

I value the Gallatin Custer NF, we use it in many different ways. I would like to see more emphasis on near town recreation for hiking and mountain biking. The NF borders Gardiner and there is an opportunity for trails to start closer to town than currently. This helps the community connect with the NF, by enabling and encouraging users to walk or ride to the trail. This also cuts down on vehicle congestion at the same time allowing non vehicle owners(youth and other) better access.

Thanks for everything and the great access that we have,

Dan Smith
