Comments: Greenwater Access and Travel Management Project

As a King County resident, the Greenwater area is vital to me as an outdoors area. Please retain as much open access to users and motorcyclists by approving OPTION 3: Closure of 35% of roads is preferred. It is important to retain this area for users as much as possible. If we continue to close areas to users then remaining open areas will become busier and cause greater environmental impact. It is best to allow users many options to reduce traffic, keep areas open and build a community of educated and respectful users.

Cheers,
Sean McDermott
