Comments: Greenwater ATM

Hi,

I'm writing in response to the Greenwater Access and Travel Management project. I've recently reviewed the draft environmental assessment available at (http://www.fs.usda.gov/project/?project=47991).

I'd like to express my support for Alternative 3 identified in the report. I believe that this is the best option that has been identified.

Please let me know if you would like further discussion regarding my comments here.

Thank you,
Lukas Jones
