Comments: Greenwater ATM

Hi,

I just wanted to make a simple comment regarding the Greenwater Access and Travel Management Project. I admit I do not completely understand the complete project, but I gather that there are different levels of closure being considered. While I would prefer that there would be no closures, I doubt that will happen. So I would ask that the closures be held to a minimum. I've been a resident of the Puget Sound since 1983 and have enjoyed many hours in the forests from Enumclaw to Nile and from the Rimrock Lake area north to Liberty. I've spent many years as an off-roader in my jeep. Being a member of a local jeep club for many of those years. That is where I learned the "proper" way to enjoy our forests and trails. I am currently starting to enjoy the sport of Dual Sport motorcycle riding. I am hoping to do much of my riding in the Greenwater forests as well as other local areas. So keeping our roads accessible is very important to me.

Thank you for your time and considering my thoughts about keeping as much of our current road/trail system available for use.
