Title:

Comments: I want the existing Hyalite Porcupine Buffalo Horn Wilderness (HPBH) Study Area to officially receive wilderness designation. I additionally want the boundaries of the 155,000 acre HPBH be expanded upon with its neighboring designated roadless areas to create a robust wilderness area, of over 200,000 acres, to truly benefit the Gallatin Range. With the grizzly bear now delisted from the Endangered Species Act we need more wilderness areas in the Greater Yellowstone Ecosystem - not less! Keep these areas roadless and closed to wheeled traffic of all kinds.
