Comments: The lion head area is truly a special place to mountain bike. I have ridden many places in the US but none are like the lion head. It would be a travesty to take it away from the riders that have been using it for many years and the riders yet to discover true backcountry adventure on a bike. Please don't take more special places away from us bikers. These are one of a kind bike rides and if things keep going the way they seem to be there will be none of them left. Thanks for your time and consideration. This is very important to me as a frequent trail user.
