Comments: Comments Draft Plan - CGNF

The purpose of this email is to ask the USFS to establish the four following areas in the Pryor Mountains as Recommended Wilderness Areas: The Big Pryor RWA, Punch Bowl RWA, Lost Water / Crooked Creek RWA, and the Bear Canyon RWA.

Establishing these new RWAs will not repair the damage done by the 120+ miles of roads the USFS opened to unrestricted motorized use across the small and fragile West Pryor Mountain (Big Pryor) uplift, but it will go a long way in preventing further damage to the rare and treasured cultural and natural resources that define the Pryors.
