Title:

Comments: Josh Nicholes, Acting District Ranger:

I feel that it is wrong and against public interests to allow for the leasing and almost certain destruction of Public Lands to the Oil and Gas Industry. trump and the GOP have done their utmost to destroy and sell off lands belonging to the American People and this practice needs to be stopped. These Public Properties are for the enjoyment of present and future generations and should NOT be used to increase the vast fortunes of private companies or governmental attempts to increase our dependence on fossil fuels. I hope that you will do your job and help to protect these Public Lands rather than destroy or corrupt them.
