Title:

Comments: Max,

These improvements to the terrain for the ski racing/free ski training community is well over due and should get started ASAP. The safety of the kids and coaching staff is extremely important, those are 2 great reasons to develop this existing area. The added space will be an excellent addition to the Gold Peak training/racing area and will create a safer, earlier and longer training season. This will also create added revenue for SSCV, Vail Resorts and TOV.

Kind regards,

Gerald Salani Wagner Rents Sales Consultant
