Comments: "PLEASE DO NOT DESTROY GODS COUNTRY" I am a native Nevadan and this area is very special to my myself and my family. I have been coming here every summer for 40 years. Best fishing, hiking, bird watching, wildlife veiwing anywhere in this country!! Use to be great deer hunting until the mine moved in south of the wetlands and disrupted their migration areas it will never be the same. Please dont let that happen to the rest of this beautiful area.
