First name: Tiffany

Last name: Hoffman

Organization:

Title:

Comments: Please don't do this. As a long time Nevada resident the Ruby Mountains have been a sanctuary and refuge for me and so many others. It's a truly special place. Whatever short-term benefits and temporary financial gains are involved, they are NOT worth the risk to the land and the disturbance of this beautiful natural space. We have damaged so many pristine places as humans, please not this one.
