

Data Submitted (UTC 11): 4/14/2018 5:14:19 PM

First name: Sierra

Last name: Jickling

Organization:

Title:

Comments: Please do not open these parcels up to leasing, the Ruby Mountains are such a beautiful and valuable natural asset to our state and the Forest Service should continue to hold on to the lands surrounding the wilderness area in order to discourage future extractive practices in the area that will threaten the habitat, wildlife, and natural integrity of the area for future generations of Nevadans and visitors. Please please please.
