First name: Barbara

Last name: Lentz

Organization:

Title:

Comments: Please don't allow oil/gas/fracking exploration or implementation within the Ruby Mts. of Nevada. This is one of the most beautiful areas in the state, and my family frequently hikes and camps there. Why would anyone even consider this? I'm just so saddened by the direction our Interior/lands management is heading in this country. Please don't !! Thank you -

Barbara Lentz
