Comments: I am for the expansion at Golden Peak. Safety is my main reason for my support of the expansion. Not only is our ski racing program growing, but our population is growing in Eagle County. I believe the projection is that Eagle County will double in population within the next twenty to thirty years. For this reason alone we need to look ahead at the safety of our racing athletes and to the public skiing population. The expansion would give our racers more room to train and race, while not taking terrain away from the skiing public.
