Title:

Comments: Lived my entire life here. Hiked in more times than I could count. My last adventure last Spring was a terrible disturbing experience. The impact humans are leaving on this beautiful area is horrendous. Keep this area safe and pristine. Limit daily visitors. Issue permits for visitors, limit parking, USFS has a number of ways to lessen impacts on this environment. Please use them before it too is destroyed by humans. This place I'm extremely fortunate to call home. I say no parking lot. Permits only.
