Subject: WWW Mail: Ruby Oil and Gas

Project #52443

It is with great concern that I write you to protest the proposed drilling in the Ruby Mountains. This is a pristine range that should be preserved for hunting, fishing and outdoor recreation.

We live in the most seismic state in the country. Why would you even consider drilling?

Please note what has happened in Oklahoma.... which used to be seismically inactive until the uncontrolled fracking allowed by Scott Pruitt. This alone should be a huge red flag to not proceed.

Please! No oil or gas leases for drilling!
