Comments: As a 50yr property owner in Tin Cup, Colorado, I want to thank the Forest Supervisor, Scott Armentrout, for helping our area become safer from wildfire threats. The Order No. GUMG-2017-11 "Tincup Dispersed Camping Restricted Area" has in its one year of enforcement significantly helped our surrounding national forest in many ways. The wildfire threat has declined and the overuse & forest destruction that was occurring has started to heal. Please make this Forest Order permanent.
