Comments: I think that paying for day use wouldn't be so bad if possible. Or having it be included with annual permits? I live in the area and it's a very "Instagramable" and definitely has higher traffic from all the tourism. The river community appreciates it of course but it'd be nice to keep it intact. Footpath maintenance or widening will definitely need to take place. I tend to go on winter weekdays so I don't see a thousand people. I have seen people with 4x4s attempt to drive up the adjacent dirt road and get stuck next to the trailhead and I would chain that off if possible. Thank you!
