Comments: Golden Peak Vail Colorado

Mr. Forgens,

I am concerned by the continued deforestation of public lands for recreation facilities benefitting Vail Resorts in this area. This land is already in use by hikers and people in the area who enjoy the views of our beautiful forests. It is also in use by the creatures who call it home.

I oppose the privatization of our public lands in this way. Vail Resorts in Vail Colorado encompasses thousands of acres already. They could convert some of their many existing ski runs to accommodate their needs without imposing further on more public land.

Please vote against Vail Resorts takeover of the proposed land in Vail Colorado.

Sincerely,

Sherrie Schaeffer
