Comments: VR lease on Forest Service land

To Whom It May Concern:

Why does the Federal Government support Vail Resorts' anticompetitive conduct with regard to ski lessons on Vail Mountain?

In particular a VR ski instructor sees only a small portion of the almost one thousand dollars for a ski lesson. I am sure there are many competent ski instructors that would agree to carry liability insurance (if the Colorado Ski act doesn't transfer all the risk to the skier) and would like to compete for this business.

I personally think it is quite unseemly for the Federal Government should be colluding with VR to engage in anticompetitive conduct.
