Title:

Comments: Keep the Ruby Mountains PRISTINE

Keep the ENTIRE AREA free of filthy, environment-destroying fossil-fuel development. America's energy future is in RENEWABLE, CLEAN ENERGY. We can't afford any more INEVITABLE pipeline ruptures. We can't afford pumping clean water into a shale hole, along with a noxious combination of carcinogenic chemicals and God only knows WHAT else, and pumping WASTE WATER back into the ground. We can't afford catering to billionaire interests at the cost of destroying the planet any worse than it already has been. We CANNOT TOLERATE MAKING GLOBAL WARMING AND CLIMATE CHANGE IRREVERSIBLE.

OF COURSE the BLM received requests to dig for oil on this land. They're greed-driven sons of bitches. America's "conservatives" conserve nothing but their own PERSONAL WEALTH AND POWER. GOP = Greed Over People. These macho shitheads need to KEEP IT. Keep it in their PANTS and KEEP IT IN THE GROUND.

STOP PANDERING TO THESE MORONS. And don't take their bribes, either.
