Comments: No to leasing for gas or oil

Dear Sirs,

Best to you... Thanks for the good fight...

We need to go green, not back peddle.

We need to address alot of issues, clean energy getting natural gas out of God's Earth by fracking only pollutes our planet he made for all.

Roundup weed killer, GMO foods, and Rat poison are right up there with fracking and drilling for oil. We are destroying this beautiful planet for future generations.

There you have my input and thanks for asking me...

Joey Devine
