First name: Joan

Last name: Smith

Organization:

Title:

Comments: Ruby Oil and Gas

Please do not open the Ruby Mountain area to gas and oil exploration, extraction, or exploitation. Renewable resources are where our money should be going and where our energies must be devoted.

Oil and gas leasing is short-sighted and promises to destroy the land, wildlife, and our wilderness. Public lands should be preserved for all generations and not sold off to the highest bidder.

Please preserve our natural history.

Joan M. Smith
