Comments: Ruby Oil & Gas

I am 100% opposed to opening up any area in the Ruby Mts. or surrounding area for oil & gas leasing which would lead to fracking. Not only would this destroy the beauty of the area but fracking has led to increased earthquakes where it is done. My husband & I have camped in this beautiful area. We cannot continue to harm our environment with these kinds of practices that give short-term monetary benefits that create long term harm. NO TO GAS & OIL LEASES! Thank you.
