Title:

Comments: ruby oil and gas leasing

Please, stop destroying out limited resources. The forest service needs to do more to protect our forests,soils, watersheds, wildlife , roadless areas etc etc.. Please think of the future. I live by an orange river, that was destroyed by coal mines. These monsters who destroy then walk away with millions need to be stopped. THERE ARE BETTER WAYS. Protect OUR public lands . . Enough is enough Ken and Terrie Balko and family
