Comments: Ruby Oil and Gas

Hello. My name is Jody Marvel. I am sure you are getting numerous emails in opposition to drilling for oil in Ruby Mountains. I to strongly disagree with this proposal. As you, and all northern nevadans, already know the Ruby Mountain range and surrounding areas is one of the most special places in Nevada. The scenery is unmatched and the setting is next to none.

It is disappointing to me that the proposal to lease land for oil and gas is even being considered.

Im sure there is many details to this proposal the public does not know, or has not been informed of, both for and against this deal. However, at face value this is not a good thing for Nevada.

I hope the best interest of all Northern Nevadans is kept in mind and put at the forefront when this decision is made.

Thanks for your time

Jody Marvel
