Comments: Oppose fracking in Ruby Mountains

I am OPPOSED to opening up the pristine Ruby Mountains of Nevada to fracking. I would hope that if I ever have a chance to visit the beautiful land there it will still be pristine. I OPPOSE, in general, the opening of park lands to oil and gas companies. We don't need to be expanding fossil fuels; we do need to be preserving the beauty we are blessed with.

Sincerely,

Suzanne Sorkin
