Comments: Proposed development for Mt. Rose area

Dear Madam/Sir,

I am very concerned about the proposed development for the Mt. Rose area.

I support Alternative 1, the No-Action alternative, as this area should remain free and clear of any expansion of the ski resort.

The north side of Mt Rose should be kept free of commercial development; there should be no further area dedicated to the existing downhill ski area, nor any additional chair lifts.

Please preserve this area for non-motorized, dispersed, backcountry recreation.

Thank you,

--
