Title:

Comments: Public lands belong to we the people and the countless wildlife who make those places their homes.

They are NOT for short-sighted exploitation by greedy corporations seeking to further damage, degrade and destroy the planet for their own personal enrichment!!! They are NOT for selling off to foreign entities. They are NOT for the cheap grazing of beef cattle at the expense of wild horses! They are NOT for drilling, fracking, mining, logging OR ANY OF THAT (though I would not object to them containing, in limited and well-placed areas, solar panels and wind mills since clean, green energy is the ONLY energy we should be producing now and for the rest of time)!

PUBLIC LANDS ARE SACRED AND CHERISHED AND ARE OWED TO FUTURE GENERATIONS! THEY ARE PROTECTED FOR A REASON, AND THEY ARE PROTECTED FOR LIFE! HANDS OFF OUR PUBLIC LANDS!!!
