First name: William

Last name: Bollenbach

Organization:

Title:

Comments: I object to the destruction of habitat and legacy of ALL Americans for the short term of a few of them. In this time of fuel conservation, we should be CONSERVING these resources and NOT exploiting them. These lands are better suited to the maximum use of the MOST Americans. That means limited impact and continued habitat for deer and other creatures. Please preserve these lands. Do NOT lease them.
