Title:

Comments: Good afternoon,

This is in response to keeping oil exploration OUT of the Ruby Mountains. I am against the proposal and wish to have my name listed along with those who oppose it. The Ruby Mountains are the majestic mountains everyone, everyone loves. While traveling throughout my life I speak of the splendor of where I live. One year I met a woman from Germany while we were in Santa Fe, NM together. She was so intrigued by hearing of the rugged, beautiful Ruby Mountains, a year later she travelled from Germany to come to Elko County to see the country that is as big as Germany, but mostly she came to see the Ruby Mountains.

The Rubys have touched people from all over the world. They are our special, precious piece of the earth.

Please, please do not their pristine, rugged, sacred beauty be raped by the greed and glutton of the oil industry.

Sincerely,

Lisa M. Abbott
